Part II: Student Learning Outcomes

Part II: Student Learning Outcomes

The key characteristics of successful networked-economy firms can be summarized as follows:

- They do business in intensely competitive markets that have low barriers to entry.
- Their strategy often involves, but is by no means limited to, significant technological innovations.
- Increasingly, they interact with their customers via technology.
- They take advantage of Web tracking technologies to better market and serve their customers.
- They succeed by leveraging electronic information networks and new-media interfaces—in other words, they derive value from gathering, synthesizing and distributing information.
- Innovation occurs in “real time” (in response to customer and market demands and insights) rather than in “cycle time” (with methodological and period changes).
- Resources can easily be shifted to accommodate customer or market demands. (In comparison, old-economy firms are often unable to satisfy significant market demand shifts.)

Learning Outcomes:

- To create e-commerce strategies
- Basic technology concepts and the new challenges and opportunities the Internet has brought to companies
- Ability to use analytical tools in networked-economy markets
- Demonstrate different types of business models in the networked economy
- Outline guiding principles behind the design and strategy of the customer web interface
- Develop traditional and new marketing approaches to create competitive advantage in the networked economy
- Oversee strategy implementation for the networked economy
- Outline metrics to measure progress, customer satisfaction and financial performance
- Oversee the website development process

GRADING SYSTEM:

Grades earned in courses impact academic progression and financial aid status. Before withdrawing from a course, be sure to talk with your instructor and financial aid counselor about the implications of that course of action. Ds, Fs, Ws, WFs and Is also negatively impact academic progression and financial aid status.

The Add/Drop Period is the first 5 days of the semester for **full term** classes. Add/Drop periods are shorter for accelerated format courses. Please refer to the [academic calendar](#) for deadlines for add/drop. You must attend at least one meeting of all of your classes during that period. If you do not, you will be dropped from the course(s) and your Financial Aid will be reduced accordingly.

Part IV: Attendance

Horry-Georgetown Technical College maintains a general attendance policy requiring students to be present for a minimum of 80 percent (80%) of their classes in order to receive credit for any course. Due to the varied nature of courses taught at the college, some faculty may require up to 90 percent (90%) attendance. Pursuant to 34 Code of Federal Regulations 228.22 - Return to Title IV Funds, once a student has missed over 20% of the course or has missed two (2) consecutive weeks, the faculty is obligated to withdraw the student and a student may not be permitted to reenroll. **Instructors define absentee limits for their class at the beginning of each term; please refer to the Instructor Course Information Sheet.**

For online and hybrid courses, check your Instructor's Course Information Sheet for any required on-site meeting times.
