COURSE TITLE: Guidance and Classroom Management

RATIONALE FOR THE COURSE:

In this course we focus on the fact that the key to successful classroom management is prevention. The students explore classroom management strategies and classes include techniques that are involved with stimulating curiosity and interest as well as aspects involved in keeping order, maintaining discipline and establishing control. Students learn that there are many different reasons for “misbehavior” in a classroom. The teacher needs to be able to look at problems in great detail before determining appropriate course of action to take.

This course is an overview of developmentally appropriate, effective guidance and classroom management techniques for the teacher of young children. A positive pro-active approach is stressed in the course.

When having technology problems find another computer to complete the required work. Computers are open to students at numerous locations on all three campuses including open computer labs and the libraries. There are computers available for use in other public locations including the public libraries. A final option would be to contact a friend or relative to borrow a computer. When technology issues are related to the system (i.e., D2L and WaveNet), and not the result of a broken computer, you should contact student online support OIT Help Desk at (843) 349-5340 or through their link on the WaveNet homepage. Although, technology issues or problems are **not** an acceptable excuse for **not** participating as required, it is a good idea to notify your professor about the problem or difficulty.

STUDENT RESPONSIBILITY AND COURSE ACADEMIC MISCONDUCT:

Students must complete their own work whether online or in a traditional classroom. Under Section III - Proscribed Conduct - of the Student Code for the South Carolina Technical College System (3-2-106.1) as published in the Horry-Georgetown Technical College (HGTC) Catalog and Student Handbook, "Academic Misconduct [*is*] all forms of academic misconduct including, but not limited to, cheating on tests, plagiarism, collusion and falsification of information [*and*] will call for discipline. Alleged violations will be handled according to the procedures presented in Section IV" of the catalog. The disciplinary procedures and possible consequences for an act of academic misconduct are detailed under Sections IV and V of the HGTC Catalog and Student Handbook.

Therefore, students **must** complete their **own** work whether online or in a traditional classroom. Any student who does **not** complete his(her) own work, completes his(her) work through significant assistance of another person(s) or completes work for another student, whether for compensation or not, has violated the Student Code and has committed academic misconduct. The act of misconduct includes plagiarism, or the act of using or presenting another person's work as your own.

To avoid the question of plagiarism, all information and material used as reference for any paper or project must have a parenthetical citation in the text identify the source of that knowledge and also listed on the reference page as required by the Publication Manual of the American Psychological Association.

Any incident of suspected academic misconduct will be investigated, and should the evidence find that student is in violation of the student code, the incident will be formally reported to the Chief Instructional Officer or her designate.

The possible disciplinary actions, which a professor may take for a substantiated incident of misconduct, are set forth in the Horry-Georgetown Technical College Catalog and Student Handbook.
