COURSE INSTRUCTIONAL PACKAGE

EET 227

Electrical Machinery

Effective Term

Fall 2026/Spring 2027/Summer 2027

Part I: Course Information

Effective Term: Fall 2026/Spring 2027/Summer 2027

COURSE PREFIX: EET 227

COURSE TITLE: Electrical Machinery

CONTACT HOURS: 5

CREDIT HOURS: 3

RATIONALE FOR THE COURSE:

The electronics engineering technology student must have knowledge of the machinery used to convert electrical energy into mechanical energy and vice versa. The student may find themselves involved in industries that either use or produce these devices.

COURSE DESCRIPTION:

This course is a study of AC and DC electro-mechanical energy conversion devices, theory, applications and control. Devices are tested and verified using electrical instruments.

PREREQUISITES/CO-REQUISITES:

Credit level EET 114 Minimum Grade of C or Credit level EET 114 Minimum Grade of TC.

REQUIRED MATERIALS:

Please visit the [BOOKSTORE](#) online site for most current textbook information. Enter the semester, course prefix, number and section when prompted and you will be linked to the correct textbook.

ADDITIONAL REQUIREMENTS:

Scientific calculator, USB flash drive.

TECHNICAL REQUIREMENTS:

- Access to Desire2Learn (D2L), HGTC's learning management system (LMS) used for course materials.
- Access to myHGTC portal for student self-services.

- College email access – this is the college’s primary official form of communication.

ATTENDANCE VERIFICATION:

The Add/Drop Period is the first 7 days of the semester for **full term** classes. Add/Drop periods are shorter for accelerated format classes. Please refer to the [academic calendar](#) for deadlines for add/drop. You must attend at least one meeting of all your classes during that period. If you do not, you will be dropped from the course(s) and your Financial Aid will be reduced accordingly

IDENTIFICATION VERIFICATION:

Students enrolled in online courses will be required to complete identity verification. Please refer to your Instructor’s Course Information Sheet for information regarding this requirement.

STUDENT COURSE EVALUATIONS:

Each semester, students are provided with an opportunity to participate in course evaluation surveys. These evaluations offer crucial feedback to instructors and the College, leading to enhancement of educational quality. By completing these surveys, you play a key role in the ongoing improvement of teaching methods and course content, ensuring future students enjoy a better learning experience. Students are encouraged to complete these surveys as your active participation in this process reflects your dedication to your education and drives positive change.

CLASSROOM ETIQUETTE AND STUDENT RIGHTS AND RESPONSIBILITIES:

As a matter of courtesy to other students and your professor, please turn off cell phones and other communication/entertainment devices before class begins. If you are monitoring an emergency, please notify your professor prior to class and switch cell phone ringers to vibrate.

To ensure a positive College experience, guidelines exist in numerous areas of campus life. The Student Code for The South Carolina Technical College System “The Student Code” (3-2-106.1) applies to all HGTC students. The Student Code sets forth rights and responsibilities of the individual student, identifies behaviors that

are not consistent with the values of college communities, and describes the procedures that will be followed to adjudicate cases of alleged misconduct. Students are expected to conduct themselves in a civil manner, that is respectful of the rights of others, and that is compatible with the college's educational mission. Students are expected to comply with all of the college's duly established rules and regulations regarding student behavior while on campus; while participating in off-campus college sponsored activities; and while participating in off-campus clinical, field, internship, or in-service experiences. Students are expected to comply with all course requirements as specified by instructors in course syllabi and to meet the standards of acceptable classroom behavior set by instructors. For more information, login to your myHGTC account under "Student Rights and Responsibilities" card then select "Student Code of Conduct" or the "Student Catalog and Handbook."

Part II: Student Learning Outcomes

COURSE LEARNING OUTCOMES and ASSESSMENTS*:

Unit #1

Materials Covered: Fundamentals, Fundamentals of Mechanics and Heat.

*Assessment(s): Homework Assignments, Labs, Exam, Participation, Final Exam.

Learning Outcomes:

Fundamentals

- Describe the International Systems of Units
- Identify Base and Derived Units of the SI
- Employ Unit Conversion Charts
- Apply the Per-Unit System with One Base
- Apply the Per-Unit System with Two Bases
- Compare Conventional and Electron Current Flow
- Describe the Distinction between Sources and Loads
- Apply Sign Notation
- Apply Double-Subscript Notation for Voltages
- Describe the Effective Value of an AC Voltage
- Describe Phasor Representation
- Describe Harmonics
- Analyze Energy in an Inductor

- Analyze Energy in a Capacitor
- Describe Magnetic Field Intensity H and Flux Density B
- Analyze the B - H Curve of Vacuum
- Analyze the B - H Curve of a Magnetic Material
- Describe Relative Permeability
- Apply Faraday's Law of Electromagnetic Induction
- Analyze the Voltage Induced in a Conductor
- Determine the Lorentz Force on a Conductor
- Determine the Direction of the Force Acting on a Straight Conductor
- Describe Residual Flux Density and Coercive Force
- Analyze the Hysteresis Loop
- Determine Hysteresis Loss
- Describe Eddy Currents
- Determine Current in an Inductor
- Apply Kirchhoff's Voltage Law with Double-Subscript Notation
- Analyze Circuits with Hybrid Notation

Fundamentals of Mechanics and Heat

- Analyze Force
- Analyze Torque
- Analyze Mechanical work
- Analyze Power
- Analyze Power of a Motor
- Describe Transformation of Energy
- Analyze the Efficiency of a Machine
- Describe Kinetic Energy of Linear Motion
- Describe Kinetic Energy of Rotational Motion
- Describe Power Flow in a Mechanically-Coupled System
- Discuss Heat and Temperature
- Describe Temperature Scales
- Determine Heat Required to Raise the Temperature of a Body
- Discuss Transmission of Heat by Conduction, Convection, and Radiation
- Analyze Heat Losses

UNIT #2

Materials Covered: Direct Current Generators, Direct-Current Motors

*Assessment(s): Homework Assignments, Labs, Exam, Participation, Final Exam

Learning Outcomes:

Direct Current Generators)

- Describe Generating an AC Voltage
- Describe Direct-Current Generator
- Compare Differences between AC and DC Generators
- Describe Improving the Waveshape
- Describe Induced Voltage
- Describe Neutral Zones
- Determine Value of the Induced Voltage
- Describe the DC Generator Under Load
- Determine Armature Reaction
- Describe Shifting The Brushes to Improve Commutation
- Describe Commutating Poles
- Describe Operation of the Separately Excited Generator
- Analyze the No-Load Operation and Saturation Curve
- Describe the Shunt Generator
- Describe Controlling the Voltage of a Shunt Generator
- Describe the Separately Excited Generator Under Load
- Describe Shunt Generator Under Load
- Describe the Compound Generator
- Describe the Differential Compound Generator
- Describe Generator Specifications
- Describe the Construction of Direct-Current Generators
- Discuss the Ideal Commutation Process
- Discuss the Practical Commutation Process

Direct-Current Motors

- Analyze Counter-Electromotive Force (CEMF)
- Discuss Acceleration of the Motor
- Analyze Mechanical Power and Torque
- Determine Speed of Rotation
- Describe Armature Speed Control
- Describe Field Speed Control
- Discuss the Shunt Motor under Load
- Describe the Series Motor
- Describe Series Motor Speed Control
- Discuss Applications of the Series Motor

- Describe the Compound Motor
- Discuss Reversing the Direction of Rotation
- Describe Starting a Shunt Motor
- Describe the Face-Plate Starter
- Discuss Stopping a Motor
- Describe Dynamic Braking
- Describe Plugging
- Analyze Dynamic Braking and Mechanical Time Constant
- Discuss Armature Reaction
- Discuss Flux Distortion Due to Armature Reaction
- Describe Commutating Poles
- Discuss Compensating Windings
- Describe Basics of Variable Speed Control
- Describe Permanent Magnet Motors

UNIT #3

Materials Covered: Three-Phase Induction Machines, Synchronous Generators, Synchronous Motors, Single-Phase Motors

*Assessment(s): Homework Assignments, Labs, Exam, Participation, Final Exam

Learning Outcomes:

Three-Phase Induction Machines

- Describe Principal Components
- Discuss Principle of Operation
- Describe the Rotating Field
- Determine Direction of Rotation
- Analyze Number of Poles – Synchronous Speed
- Describe Starting Characteristics of a Squirrel-Cage Motor
- Describe Acceleration of the Rotor – Slip
- Analyze Motor under Load
- Analyze Slip and Slip Speed
- Describe Voltage and Frequency Induced in the Rotor
- Discuss Characteristics of Squirrel-Cage Induction Motors
- Estimate the Currents in an Induction Motor
- Describe Active Power Flow
- Discuss Torque versus Speed Curve
- Analyze Effect of Rotor Resistance

- Describe the Wound-Rotor Motor

Synchronous Generators

- Discuss Commercial Synchronous Generators
- Analyze Number of Poles
- Describe Main Features of the Stator
- Describe Main Features of the Rotor
- Discuss Field Excitation and Exciters
- Describe Brushless Excitation
- Analyze Factors Affecting the Size of Synchronous Generators
- Analyze the No-load Saturation Curve
- Describe Short-Circuit Ratio
- Describe Synchronous Generator under Load
- Analyze Regulation Curves
- Discuss Synchronization of a Generator
- Describe Control of Active Power

Synchronous Motors

- Describe Construction
- Discuss Starting a Synchronous Motor
- Describe Pull-in Torque
- Analyze Motor under Load
- Discuss Excitation and Reactive Power
- Describe Power Factor Rating
- Explain Stopping Synchronous Motors
- Discuss the Synchronous Motor versus the Induction Motor

Single-Phase Motors

- Describe Construction of a Single-Phase Induction Motor
- Discuss Synchronous Speed
- Analyze Torque-Speed Characteristic
- Discuss Principle of Operation
- Analyze Locked-Rotor Torque
- Describe the Resistance Split-Phase Motor
- Describe the Capacitor-Start Motor
- Describe the Capacitor-Run Motor
- Discuss Reversing the Direction of Rotation
- Describe the Universal Motor

****Students – please refer to the Instructor’s Course Information sheet for specific information on assessments and due dates.***

Part III: Grading and Assessment

EVALUATION OF REQUIRED COURSE MEASURES/ARTIFACTS*:

Students’ performance will be assessed, and the weight associated with the various measures/artifacts are listed below.

EVALUATION*

Exams	30%
Labs	30%
Homework Assignments	20%
Class Participation	5%
Final Exam	15%
	100%

****Students, for the specific number and type of evaluations, please refer to the Instructor’s Course Information Sheet.***

GRADING SYSTEM:

HGTC has a standardized, recommended grading scale for academic courses. The grading scale requires that grades within the indicated range be defined as follows:

A: 90-100 B: 80-89 C: 70-79 D: 60-69 F: Below 60

The following grades are used:

A – EXCELLENT: used in GPA calculations; carries a value of 4 quality points and earns credit hours.

B – ABOVE AVERAGE: used in GPA calculations; carries a value of 3 quality points and earns credit hours.

C – AVERAGE: used in GPA calculations; carries a value of 2 quality points and earns credit hours.

D – BELOW AVERAGE: used in GPA calculations; carries a value of 1 quality point and earns credit hours.

F – FAILURE: used in GPA calculations; carries a value of 0 quality points and earns 0 credit hours. (Hours attempted are used in GPA calculations.)

I – INCOMPLETE: does not affect GPA calculations; defaults to “F” automatically after one term if the incomplete work has not been completed and generates 0 quality points and 0 credit hours. (See special note below.)

WF – WITHDRAWN FAILURE: used in GPA calculations; carries a value of 0 quality points and earns 0 credit hours. (Hours attempted are used in GPA calculations.)

W – WITHDRAW: not used in GPA calculations; carries a value of 0 quality points and earns 0 credit hours. May be utilized when extenuating circumstances warrant.

Note: Regarding a grade of “I” (Incomplete): A grade of Incomplete (“I”) is assigned when the student does not complete work or take the final exam due to illness or for other reasons over which the student has no control. This grade is given only with the approval of the professor involved. An incomplete must be completed by the end of the following term. Otherwise, the grade becomes an automatic failure (“F”).

Grades earned in courses impact academic progression and financial aid status. Before withdrawing from a course, be sure to talk with your instructor and financial aid counselor about the implications of that course of action. Ds, Fs, Ws, WFs and Is also negatively impact academic progression and financial aid status.

Grades earned in courses impact academic progression and financial aid status. Before withdrawing from a course, be sure to talk with your instructor and financial aid counselor about the implications of that course of action. Ds, Fs, Ws, and Is also negatively impact academic progression and financial aid status.

Part IV: Attendance

Horry-Georgetown Technical College maintains a general attendance policy requiring students to be present for a minimum of 80 percent (80%) of their classes to receive credit for any course. Due to the varied nature of courses taught at the college, some faculty may require up to 90 percent (90%) attendance. Pursuant to 34 Code of Federal Regulations 228.22 – Return to Title IV Funds, once a student has missed over 20% of the course or has missed two (2) consecutive weeks, the faculty is obligated to withdraw the student, and a student may not be

permitted to reenroll. **Instructors define absentee limits for their class at the beginning of each term; please refer to the Instructor Course Information Sheet.**

For online and hybrid courses, refer to your Instructor's Course Information Sheet for any required on-site meeting times. In online courses, attendance is fulfilled through the submission of academic work. Please be aware that instructors may require exams to be proctored either online or at an approved testing site. If you choose to use a testing center other than those provided by HGTC, that center may charge a fee for its services.

Part V: Student Resources

THE STUDENT SUCCESS AND TUTORING CENTER (SSTC):

The SSTC offers all students the following **free** resources:

1. Academic tutors for most subject areas, Writing Center support, and Academic Coaching for college success skills.
2. Online tutoring and academic support resources.
3. Professional and interpersonal communication coaching.

Visit the [Student Success & Tutoring Center](#) website for more information. To schedule tutoring or coaching, contact the SSTC at sstc@hgtc.edu or self-schedule in the Penji iOS/Android app or at www.penjiapp.com. Email sstc@hgtc.edu or call SSTC Conway, 349-7872; SSTC Grand Strand, 477-2113; and SSTC Georgetown, 520-1455, or go to the SSTC [Online Resource Center](#) to access on-demand resources.

STUDENT INFORMATION CENTER – TECH Central:

TECH Central offers all students the following **free** resources:

1. Getting around HGTC: General information and guidance for enrollment, financial aid, registration, and payment plan support!
2. In-person and remote assistance are available for Desire2Learn, Student Portal, Degree Works, and Office 365.
3. Chat with our staff on TECH Talk, our live chat service. TECH Talk can be accessed on the student portal and on TECH Central's website, or by texting questions to

(843) 375-8552. Visit the [Tech Central website](#) for more information. Live Chat and Center locations are posted on the website. You may also call (843) 349-5199.

HGTC LIBRARY:

Each campus location has a library where HGTC students, faculty, and staff may check out materials with their HGTC ID. All three HGTC campus libraries have librarians and staff who can aid with research, computers to support academic research and related school-work, and individual/group study rooms. Printing is available as well at each location. Visit the [Library](#) website for more information or call (843) 349-5268.

STUDENT TESTING:

Testing in HGTC courses may occur during regularly scheduled class time or online, with or without proctoring. Tests may be delivered in the following formats:

- Digitally through D2L
- In writing on paper
- Through a publisher platform (note: some publisher platforms carry an associated fee)

Tests may include time limits and may require proctoring depending on the course.

When proctoring is required and is not provided by the course instructor in the classroom, students may complete their test face-to-face at an [HGTC Testing Center](#) or another approved testing site, or online using HGTC's online proctoring provider. For more information about available proctoring options, visit the [Online Testing](#) section of the HGTC Testing Center webpage.

Students testing at an HGTC Testing Center should note the following:

- **Appointments must be scheduled at least 24 hours in advance.**
- **A physical, government-issued photo ID is required to test.**

The **Instructor Information Sheet** will have more details on test requirements for your course.

DISABILITY SERVICES:

HGTC is committed to providing an accessible environment for students with disabilities. Students seeking accommodations are encouraged to visit HGTC's [Accessibility and Disability Service webpage](#) for detailed information.

It is the student's responsibility to self-identify as needing accommodations and to provide appropriate documentation. Once documentation is submitted, the student will participate in an interactive process with Accessibility and Disability Services staff to determine reasonable accommodations. Students may begin the accommodations process at any time; however, accommodations are **not retroactive** and will only be applied from the point at which they are approved. Students must contact the office **each semester** to renew their accommodations.

For assistance, please contact the Accessibility and Disability Services team at disabilityservices@hgtc.edu or 843-796-8818 (call or text).

COUNSELING SERVICES:

HGTC Counseling Services strives to optimize student success through managing personal and academic concerns that may interfere with achieving educational goals. Staff are available to every student for assistance and guidance on personal matters, academic concerns and other areas of concern. HGTC offers free in-person and telehealth counseling services to students. For more information about counseling services, please reach out to counseling@hgtc.edu or visit the website the [Counseling Services webpage](#).

STATEMENT OF EQUAL OPPORTUNITY/NON-DISCRIMINATION STATEMENT:

Our sincere commitment to both effective business management and equitable treatment of our employees requires that we present this Policy Statement as an embodiment of that commitment to the fullest.

Discrimination is conduct that includes unjust or prejudicial treatment based upon an individual's age, race, color, sex, religion, national origin, disability, and genetic information or any other protected classes deemed unlawful under State or Federal law that excludes an individual from participation in, denies the individual

the benefits of, treats the individual differently, or otherwise adversely affects a term or condition of a person's working or learning environment. This includes failing to provide reasonable accommodation, consistent with state and federal law, to persons with disabilities.

All inquiries regarding the federal laws as they relate to discrimination on the basis of sex may be directed to Jen Riddei, Title IX Coordinator, Horry-Georgetown Technical College, Building 1100C, Room 107B, 2050 HWY 501 E, PO Box 261966, 843-349-5218, Jenifer.Riddei@hgtc.edu.

Student and prospective student inquiries concerning the federal laws and their application to the College or any student decision may be directed to Dr. Melissa Batten, Vice President, Student Affairs, and Section 504 & Title II Coordinator, Horry-Georgetown Technical College, Building 1100C, Room 107A, 2050 HWY 501 E, PO Box 261966-6066, 843-349-5228, Melissa.Batten@hgtc.edu.

Employee and applicant inquiries concerning the federal laws and their application to the College may be directed to Jacquelyne Snyder, Vice President, Human Resources and Employee Relations and the College's Affirmative Action/Equal Opportunity Officer, Horry-Georgetown Technical College, Building 200C, Room 205B, 2050 HWY 501 E, PO Box 261966, Conway, SC 29528-6066, 843-349-5212, Jacquelyne.Snyder@hgtc.edu.

TITLE IX REQUIREMENTS:

Title IX of the Education Amendments of 1972 protects students, employees, applicants for admission and employment, and other persons from all forms of sex discrimination.

HGTC prohibits the offenses of sexual harassment, domestic violence, dating violence, sexual assault, and stalking and will provide students, faculty, and staff with necessary information regarding prevention, policies, procedures, and resources.

Any student, or other member of the college community, who believes that they have been a victim of sexual harassment, domestic violence, dating violence,

sexual assault, or stalking may file a report with the college's Title IX Coordinator or campus law enforcement*.

*Faculty and Staff are required to report these incidents to the Title IX Coordinator when involving students. The only HGTC employees exempt from mandatory reporting are licensed mental health professionals (only as part of their job description such as counseling services).

All inquiries regarding the federal laws as they relate to discrimination on the basis of sex may be directed to Jen Riddei, Title IX Coordinator, Horry-Georgetown Technical College, Building 1100C, Room 107B, 2050 HWY 501 E, PO Box 261966, 843-349-5218, Jenifer.Riddei@hgtc.edu.

PREGNANCY ACCOMMODATIONS

Under Title IX, colleges must not exclude a pregnant student from participating in any part of an educational program. Horry-Georgetown Technical College is committed to ensuring that pregnant students receive reasonable accommodations to ensure access to our educational programs.

Students should advise the Title IX Coordinator of a potential need for accommodations as soon as they know they are pregnant. It is extremely important that communication between student, instructors, and the Title IX Coordinator begin as soon as possible. Each situation is unique and will be addressed individually.

Title IX accommodations DO NOT apply to Financial Aid. Financial Aid regulations do not give the College any discretion in terms of Financial Aid eligibility.

Certain educational programs may have strict certification requirements or requirements mandated by outside regulatory agencies. Therefore, in some programs, the application of Title IX accommodations may be limited.

To request pregnancy accommodations, please complete the *Pregnancy Intake Form* that can be found [here](#).
