

INSTRUCTIONAL PACKAGE

NUR 221 Advanced Nursing Concepts

Effective Term
Fall 2022/Spring 2023/Summer 2023

INSTRUCTIONAL PACKAGE

Part I: Course Information

Effective Term: Fall 2022

COURSE PREFIX: NUR 221 COURSE TITLE: Advanced Nursing Concepts

CONTACT HOURS: 2.00 Lecture hours 9.00 Lab hours CREDIT HOURS: 5

RATIONALE FOR THE COURSE:

This course prepares the student to care for clients with life -threatening illness in a holistic manner, understand the complexities of multiple comorbidities, meet the psychosocial needs of clients and their families, provide holistic care to the dying client and increase participation in the profession by involvement in disaster preparedness. The student will be exposed to multiple areas that will reinforce the behaviors inherent in practice as a professional nurse: critical thinking, communication with adaptation to various barriers, professional behavior, and management of client care, teaching/learning, incorporation of evidence-based practice, clinical competence, and provision of culturally sensitive care.

COURSE DESCRIPTION:

This course expands the application of the nursing process throughout the lifespan in the care of clients experiencing complex health problems.

PREREQUISITES/CO-REQUISITES:

NUR 161 NUR 217 NUR 220 SPC 205

*Online/Hybrid courses require students to complete the <u>DLi Orientation Video</u> prior to enrolling in an online course.

REQUIRED MATERIALS:

Please visit the BOOKSTORE online site for most current textbook information.

Enter the semester, course prefix, number and section when prompted and you will be linked to the correct textbook.

ADDITIONAL REQUIREMENTS:

Pharmacology and the Nursing Process, Lilley 9th ed Nugent and Vitale, Test Success Kaplan Nursing -The Basics. Complete HGTC student nurse's uniform Wristwatch with second hand

2022-2023

Bandage scissors Penlight Stethoscope

TECHNICAL REQUIREMENTS:

Access to Desire2Learn (D2L), HGTC's student portal for course materials. myHGTC and college email access.

STUDENT IDENTIFICATION VERIFICATION:

Students enrolled in online courses will be required to participate in a minimum of one (1) proctored assignment and/or one (1) virtual event to support student identification verification. Please refer to your Instructor Information Sheet for information regarding this requirement.

CLASSROOM ETIQUETTE:

As a matter of courtesy to other students and your professor, please turn off cell phones and other communication/entertainment devices before class begins. If you are monitoring for an emergency, please notify your professor prior to class and switch cell phone ringers to vibrate.

Online Lectures: Please mute the microphone on the computer during online lectures, and only unmute when you have a question.

NETIQUETTE: is the term commonly used to refer to conventions adopted by Internet users on the web, mailing lists, public forums, and in live chat focused on online communications etiquette. For more information regarding Netiquette expectations for distance learning courses, please visit Online Netiquette.

Part II: Student Learning Outcomes

COURSE LEARNING OUTCOMES and ASSESSMENTS*:

*Students - please refer to the Instructor's Course Information Sheet and Course Calendar for specific information on assessments and due dates.

Upon completion of this capstone course (NUR 221) in the ADN curriculum, the student will be able to:

1. SAFETY

Promote a culture of safety within health care settings that minimizes the risk of harm to recipients and providers of nursing care.

2. CLINICAL DECISION MAKING

Formulate effective clinical decisions, using analytical processes, which promote positive outcomes for recipients of nursing care.

3. TEAMWORK AND COLLABORATION

Facilitate coordinated patient care by integrating communication skills with inter-professional collaborative processes.

4. PROFESSIONAL BEHAVIORS

Model behaviors that demonstrate accountability and reflect standards of the profession.

5. PATIENT CENTERED CARE

Manage patient-centered care that values individual rights and needs while respecting diversity.

Applicable to all units: DRUGS/CALCULATIONS

- mcg/kg/min
- mL/hr.
- Units per hour
- patient safety
- patient comfort
- patient/family education

Unit 1

Topics: Acute Coronary Syndrome, AAA, CABG, HIT, DIC, PTCA, and Cardiogenic Shock

Readings: assigned per topic

Assessment (s):

Quizzes, class activities

Unit exam

Learning Outcomes:

- Demonstrate advanced nursing skills utilized in a comprehensive assessment for the client in a life-threatening state.
- Construct a template to identify risk factors, associated disease processes, and related events that may precipitate Acute Coronary Syndrome.
- Differentiate the pain of different types of angina and nursing interventions.
- Analyze and develop a plan to address the diagnostic laboratory results used in detecting and evaluating an AMI.
- Interpret ECG changes related to angina and Acute Coronary Syndrome and formulate a plan of care.
- Design a plan of care outlining the nursing interventions related to the care of the client with an AMI and ACS in collaboration with the client.

Applicable to all units:

- psychosocial support
- SBAR
- Rhythm strip analysis
- HIPAA
- Current National Patient Safety Goals
- Critical thinking skills
- EKG interpretation
- Modify for the care of the client undergoing a Percutaneous Coronary Intervention based on comorbidities.
- Evaluate the components of the nursing management of the client pre and post PCI.
- Formulate a nursing plan for the care of the client pre and postoperative CABG surgery.
- Relate possible postoperative complications of CABG surgery to the medical and nursing therapies utilized to recognize, prevent, and treat those complications.
- Complete a nursing assessment, select therapeutic nursing interventions, and justify the rationale in the client with an Acute Abdominal Aneurysm.
- Compare and contrast the pathophysiologic alterations of cardiogenic shock and hypovolemic shock.
- Differentiate subjective, objective, and physical assessment data related to cardiogenic shock.
- Compare and contrast HIT and DIC including signs, symptoms, treatments, and nursing implications.

 Select a list of and prioritize the nursing implications for specific cardiac medications.

Unit 2

Topics: Acute Respiratory Failure, ARDS, Mechanical Ventilation, SIRS, Sepsis, Septic Shock, and Burns.

Readings: assigned per topic

Assessment(s):

Quizzes, class activities

Unit exam

Learning Outcomes:

- Analyze and prioritize appropriate respiratory assessment measures, including physical assessment and lab tests in the client with complex medical needs.
- Critically analyze ABG values and formulate a plan of care.
- Value the physiological, psychosocial, and spiritual effects of mechanical ventilation.
- Justify the nursing implications for prevention of complications related to mechanical ventilators.
- Formulate a plan regarding positioning, feeding, restraining, and suctioning clients on mechanical ventilation.

- Relate the etiological factors and clinical manifestations of ARDS.
- Evaluate the plan of care for the client with ARDS related to mechanical ventilation, pharmacology, and nutrition.
- Compare and contrast methods to communicate therapeutically with the client on mechanical ventilation.
- Justify the classification system used for assessing the adult with acute burn injuries.
- Analyze the major fluid and electrolyte disturbances found in the emergent and acute phases of burn care and formulate a plan of care.
- Select appropriate nursing interventions related to the client with acute burn injury.
- Justify the use of the sepsis bundle to manage and decrease risk factors for sepsis in the acute care setting.
- Critically analyze and formulate a plan to address the risk factors for the development of sepsis.

Unit 3

Topics: Acute Liver Failure, Pancreatitis, Acute GI Bleed, Esophageal Varices, Portal Hypertension, and Acute Kidney Injury.

Readings: assigned per topic

Assessment:

Quizzes, class activities

Unit exam

Learning Outcomes:

- Compare and contrast the clinical manifestations of acute and chronic renal failure.
- Evaluate the causes of and treatments for acute kidney injury (AKI).
- As part of a holistic assessment, compare and contrast the effects of renal failure on all of the major body systems.
- Analyze and develop a plan of care to

- As part of a holistic assessment, compare and contrast the effects of acute hepatic failure on the major body systems.
- Analyze and develop a plan of care to address the diagnostic test results indicative of altered liver function.
- Describe the medical management of an acute GI bleed and esophageal varices and defend the related nursing responsibilities.
- Justify the surgical procedures and nursing interventions used to reduce portal hypertension.
- Evaluate the nursing management of clients with hepatic encephalopathy.
- Create a plan of care for the client with acute pancreatitis.
- Appraise and prioritize the major causes

- address the diagnostic test results used to assess renal functioning.
- Formulate nursing interventions to assist clients who experience withdrawal or toxicity from stimulants or depressants.
- Differentiate the rationale for specific treatment modalities utilized for a client with AKI.
- of acute pancreatitis.
- Select the appropriate nursing interventions for the client with acute pancreatitis.
- Evaluate the client's therapeutic response to therapies and medications used in the treatment of pancreatitis.

Unit 4

Topics: Disaster Management, Triage, Trauma, Spinal Cord Injury, Traumatic Brain Injury, Guillain Barre Syndrome, Increased Intracranial Pressure, Brain Death/Organ Donation, SIADH, DI Readings: assigned per topic Assessments: Quizzes, class activities

Unit exam

Learning Outcomes:

- Defend the legal/ethical issues concerning brain death in the care of the client with a traumatic brain injury.
- Select pain management modalities utilized with the trauma client.
- Evaluate the client's therapeutic response to methods to improve oxygenation, perfusion, and ventilation.
- Critically analyze the priority needs of the client with trauma in both primary and secondary surveys and formulate a plan of care.
- Compare and contrast the pathophysiology of a trauma based upon mechanism of injury.
- Select the predisposing factors and argue the pathophysiology in Guillain-Barre syndrome.
- Evaluate care of the client with Guillain-Barre, focusing on nursing assessment, interventions, and education.
- Create a plan of care for the client with a Spinal Cord Injury based on extent of injury.
- Evaluate the priority nursing interventions needed for the client with a SCI.
- Prioritize the complications related to

- Develop a plan of care to address the precipitating factors and pathophysiologic changes that occur with increased intracranial pressure.
- Create a template to address a nursing assessment of a client with cranio-cerebral injury.
- Evaluate the signs of increased intracranial pressure, and complications that may occur.
- Select methods used to control intracranial pressure and the related nursing responsibilities.
- Compare and contrast the actions of selected pharmacological agents utilized in the treatment of cranio-cerebral trauma and/or increased intracranial pressure.
- Appraise the client's response to therapies and medications used to control ICP.
- Differentiate various types of therapeutic communication techniques available for use with the client and family in crises.
- Justify the role of the nurse in providing quality end-of-life care for clients across the lifespan with consideration of ethical and cultural issues.
- Defend the need for collaboration with interdisciplinary team members while implementing the nursing role in end-of-life care.
- Argue the ethical issues and dilemmas that may arise in end-of-life/palliative care.
- Support the role of advance directives in preventing ethical dilemmas.
- Examine the causes of grief and loss issues as they relate to complex or traumatic circumstances.
- Apply the steps in triage, the primary

 spinal cord injury and judge the appropriate nursing interventions. Value the physiological impact of spinal cord injuries on sexual function and discuss collaboration with team members. 	survey, and the secondary survey to a client with medical, surgical, or traumatic emergency.

Part III: Grading and Assessment

EVALUATION OF REQUIRED COURSE MEASURES/ARTIFACTS*:

Students' performance will be assessed and the weight associated with the various measures/artifacts are listed below.

EVALUATION*

Unit Exams:	80%
Quizzes & Assignments	10%
Final Exam:	10%
	100%

Achieve a weighted exam average of **77 or greater** on the theory components of the course in order to pass the course. The theory components are the unit exams and the final exam. The weighted average for all other assignments will be added after the **weighted average of 77** is achieved on the unit exam and final exams to generate the final calculated grade.

Students must achieve a minimum of 77 weighted points on the unit tests and final exam in order to progress. The grade is calculated as follows: Unit test average X percentage and Final exam test grade X percentage divided by 90.

As an example:

Unit test average 77.54 X .80 = 62.03 Final exam grade 81.04 X .10 = 8.1 Total points 70.13 /90 = 77.9

The remaining points from other assignments will be added once the grade of 77 or greater is achieved in order to calculate the overall theory grade. There is no rounding of any grades. Grades are calculated to the hundredth decimal place.

*Students, for the specific number and type of evaluations, please refer to the Instructor's Course Information Sheet.

GRADING SYSTEM:

Because competency in nursing theory is a critical component for safe nursing practices, the grading scale for nursing is higher than for some other courses. The grading scale for nursing is:

90 - 100 = A 80 - 89 = B **77 - 79 = C** 69 - 76 = DBelow 69 = F

A grade of "C" is required all courses in the Associate Degree Nursing Program. Grades below "C" are considered course failures.

Grades earned in courses impact academic progression and financial aid status. Before withdrawing from a course, be sure to talk with your instructor and financial aid counselor about the implications of that course of action. Ds, Fs, Ws, WFs and Is also negatively impact academic progression and financial aid status.

The Add/Drop Period is the first 5 days of the semester for **full term** classes. Add/Drop periods are shorter for accelerated format courses. Please refer to the <u>academic calendar</u> for deadlines for add/drop. You must attend at least one meeting of all of your classes during that period. If you do not, you will be dropped from the course(s) and your Financial Aid will be reduced accordingly.

Part IV: Attendance

Horry-Georgetown Technical College maintains a general attendance policy requiring students to be present for a minimum of 80 percent (80%) of their classes in order to receive credit for any course. Due to the varied nature of courses taught at the college, some faculty may require up to 90 percent (90%) attendance. Pursuant to 34 Code of Federal Regulations 228.22 - Return to Title IV Funds, once a student has missed over 20% of the course or has missed two (2) consecutive weeks, the faculty is obligated to withdraw the student and a student may not be permitted to reenroll. **Instructors define absentee limits for their class at the beginning of each term; please refer to the Instructor Course Information Sheet.**

For online and hybrid courses, check your Instructor's Course Information Sheet for any required on-site meeting times. Please note, instructors may require tests to be taken at approved testing sites, and if you use a testing center other than those provided by HGTC, the center may charge a fee for its services.

Part V: Student Resources

THE STUDENT SUCCESS AND TUTORING CENTER (SSTC):

The SSTC offers to all students the following **free** resources:

- 1. Academic tutors for most subject areas, Writing Center support, and college success skills.
- 2. Online **tutoring** and academic support resources.
- 3. Professional and interpersonal communication **coaching** in the EPIC Labs.

Visit the <u>Student Success & Tutoring Center</u> website for more information. To schedule tutoring, contact the SSTC at sstc@hgtc.edu or self-schedule in the Penji iOS/Android app or at <u>www.penjiapp.com</u>. Email <u>sstc@hgtc.edu</u> or call SSTC Conway, 349-7872; SSTC Grand Strand, 477-2113; and SSTC Georgetown, 520-1455, or go to the <u>Online Resource Center</u> to access on-demand resources.

STUDENT INFORMATION CENTER: TECH Central

TECH Central offers to all students the following free resources:

- 1. **Getting around HGTC**: General information and guidance for enrollment, financial aid, registration, and payment plan support!
- 2. Use the Online Resource Center (ORC) including Office 365 support, password resets, and username information.
- 3. **In-person workshops, online tutorials and more services** are available in Desire2Learn, Student Portal, Degree Works, and Office 365.
- 4. **Chat with our staff on TECH Talk**, our live chat service. TECH Talk can be accessed on the student portal and on TECH Central's website, or by texting questions to (843) 375-8552.

Visit the <u>Tech Central</u> website for more information. Live Chat and Center locations are posted on the website. Or please call (843) 349 – TECH (8324), Option #1.

STUDENT TESTING:

Testing in an **online/hybrid** course may be accomplished in a variety of ways:

- Test administered within D2L
- Test administered in writing on paper
- Test administered through Publisher Platforms

Further more tests may have time limits and/or require a proctor.

Proctoring can be accomplished either face-to-face at an approved site or online through our online proctoring service. To find out more about proctoring services, please visit the <u>Online Testing</u> section of the HGTC's Testing Center webpage.

The **Instructor Information Sheet** will have more details on test requirements for your course.

DISABILITY SERVICES:

HGTC is committed to providing an accessible environment for students with disabilities. Inquiries may be directed to HGTC's <u>Accessibility and Disability Service webpage</u>. The Accessibility and Disability

staff will review documentation of the student's disability and, in a confidential setting with the student, develop an educational accommodation plan.

Note: It is the student's responsibility to self-identify as needing accommodations and to provide acceptable documentation. After a student has self-identified and submitted documentation of a disability, accommodations may be determined, accepted, and provided.

STATEMENT OF EQUAL OPPORTUNITY/NON-DISCRIMINATION STATEMENT:

Horry-Georgetown Technical College prohibits discrimination and harassment, including sexual harassment and abuse, on the basis of race, color, sex, national or ethnic origin, age, religion, disability, marital or family status, veteran status, political ideas, sexual orientation, gender identity, or pregnancy, childbirth, or related medical conditions, including, but not limited to, lactation in educational programs and/or activities.

TITLE IX REQUIREMENTS:

All students (as well as other persons) at Horry-Georgetown Technical College are protected by Title IX—regardless of their sex, sexual orientation, gender identity, part- or full-time status, disability, race, or national origin—in all aspects of educational programs and activities. Any student, or other member of the college community, who believes that he/she is or has been a victim of sexual harassment or sexual violence may file a report with the college's Chief Student Services Officer, campus law enforcement, or with the college's Title IX Coordinator, or designee.

*Faculty and Staff are required to report incidents to the Title IX Coordinators when involving students. The only HGTC employees exempt from mandatory reporting are licensed mental health professionals (only as part of their job description such as counseling services).

INQUIRIES REGARDING THE NON-DISCRIMINATION/TITLE IX POLICIES:

Student and prospective student inquiries concerning Section 504, Title II, and Title IX and their application to the College or any student decision may be directed to the Vice President for Student Affairs.

Dr. Melissa Batten, VP Student Affairs

Title IX Coordinator Building 1100, Room 107A, Conway Campus PO Box 261966, Conway, SC 29528-6066 843-349-5228 Melissa.Batten@hatc.edu

Employee and applicant inquiries concerning Section 504, Title II, and Title IX and their application to the College may be directed to the Vice President for Human Resources.

Jacquelyne Snyder, VP Human Resources

EEO and Title IX Coordinator Building 200, Room 212A, Conway Campus PO Box 261966, Conway, SC 29528-6066 843-349-5212 Jacquelyne.Snyder@hatc.edu
